Sir:

OFFICE OF PETITIONS

I, John M. Wechkin, do hereby declare:

1. The facts set forth in this Declaration are personally known to me based on first-hand knowledge of such facts or upon representations made to me by Ms. Renalov, a paralegal at the law firm of Perkins Coie, LLP ("Perkins Coie").

2. I am an attorney at Perkins Coie, located at 1201 Third Avenue, Suite 4800, Seattle, Washington 98101, and I am outside patent counsel for Micron Technology, Inc. ("Micron").

3. I was involved in the filing and prosecution of U.S. Application No. 09/472,725 (the "Application"). The inventors identified on an invention disclosure form which provided the basis for the Application are as follows: Michael V. Leman, Gregory P. Johnson, R. Doug Smith, Craig L. Boe, Jacques Gagne, and Philip Hartley.

4. I drafted the Application and caused it to be filed in the U.S. Patent and Trademark Office ("USPTO") with missing parts, on December 27, 1999. The application became abandoned on April 10, 2000. The delay in discovering the

abandoned status occurred despite the exercise of due diligence on my part and on the part of other attorneys and staff of Perkins Coie. The following is the explanation of the circumstances under which I first became aware of the abandonment and the steps taken since that date.

5. On January 12, 2001, Paul T. Parker, an attorney at Perkins Coie and an attorney of record for the Application filed a Status Request with the USPTO, with a return address of P.O. Box 1247, Seattle, WA 98111-1247. This address is the return address we routinely use for USPTO correspondence. No reply to the status inquiry has been received.

6. A check status action due date for the Application was docketed in our docketing system for June 7, 2002, at which time Ms. Iov checked the status of the Application through the Patent Application Information Retrieval (PAIR) system. The PAIR system indicated (in the File Contents History) that the subject application was received incomplete and abandoned on April 10, 2000.

7. A thorough search of the file jacket and the docket records showed no evidence of receipt of the Notice to File Missing Parts of Application or the Notice of Abandonment.

8. On June 12, 2002, Ms. Iov telephoned the USPTO's Initial Examination Division and Application Search Division. She left a detailed message regarding our inquiry into the circumstances under which the Application became abandoned.

9. On June 18, 2002, Ms. Iov once again telephoned the USPTO and was connected with Examiner Doshie Day, the Examiner for the Application, who advised her that the Application was in fact abandoned for failure to respond to the Notice to File Missing Parts. The Examiner assured Ms. Iov that she would order the file and fax her a copy of the Notice of Abandonment on June 19, 2002.

10. On July 12, 2002, we received via fax a copy of the Notice to File Missing Parts and noted that the address to which the Notice to File Missing Parts had

originally been sent was incorrect. An examination of the Application as filed indicated that the return address provided by us to the USPTO was incorrect in that it was a street address for Perkins Coie rather than the Post Office box address indicated in paragraph (5) above. It appears that because the Notice to File Missing Parts and the Notice of Abandonment were both sent to Perkins Coie's street address rather than the intended Post Office box, I received neither document. It is not clear whether or not a response to our initial status inquiry (filed January 12, 2001) was sent to us by the USPTO.

11. On July 23 and July 26, 2002, Ms. Iov left messages with Examiner Day seeking a copy of the Notice of Abandonment. On August 19, 2002, we received a copy of the Notice of Abandonment, which was also originally sent to Perkins Coie's street address.

12. During September 2002 and early October 2002, attempts were made to obtain current addresses for the inventors, and to contact the inventors directly.

13. On October 22, 2002, Ms. Iov sent each of the individual inventors (via certified mail/return receipt requested) a copy of the Application as filed and the original Declaration and Assignment documents for execution. These materials were sent to the inventor's last known addresses.

14. We received executed Declarations from Messrs. Gregory P. Johnson and Craig L. Boe, attached as Exhibit A.

15. The packages sent to Messrs. R. Doug Smith, Jacques Gagne and Philip Hartley (mailed to their last known addresses) were returned undelivered. Copies of the front of the packages are attached as Exhibit B.

16. Mr. Michael V. Leman received a copy of the Declaration but has not yet returned his signed Declaration. A copy of the signed certified mail receipt is attached as Exhibit C.

17. The present Declaration and corresponding Petition under 37 C.F.R. § 1.137(b) were prepared promptly upon receiving from each of the inventors a signed inventor Declaration or a clear indication that the inventor Declaration sent to them was either received or not received by the inventor.

18. I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further, that these statements were made with the knowledge that the making of willfully false statements and the like is punishable by fine, or imprisonment, or both, under Section 101 of Title 18 of the United States Code.
